Subject: Arroyo Grande Aquifer Exemption Application -- Technical Presentation Meeting Request

Hello Mr. Martini:

Thank you for your offer to provide a technical presentation for EPA about operations at the Arroyo Grande Oil Field as they relate to the details of the aquifer exemption boundary adjustment proposal that DOGGR and the SWRCB recently released for public notice. As we have been briefed on this matter by DOGGR District technical staff, I think we have a good handle at this stage on the proposal. However, we very much appreciate the offer and will keep it in mind as this process moves forward. When the State has completed its public review/response process and submitted a package to EPA for formal consideration, I expect we will be interested to schedule a technical discussion about the package, in coordination with the State.

Regards,

David
